

COMMONWEALTH OF KENTUCKY  
BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

APPLICATION OF CELLULAR PHONE OF KENTUCKY, INC.	)	
FOR ISSUANCE OF A CERTIFICATE OF PUBLIC	)	CASE NO.
CONVENIENCE AND NECESSITY TO CONSTRUCT ADDITIONAL	)	95-184
CELL FACILITIES IN KENTUCKY RURAL SERVICE AREA	)	
NO. 6(B1) (BURNSIDE CELL SITE)	)	

O R D E R

On May 9, 1995, Cellular Phone of Kentucky, Inc. ("CPKI") filed an application seeking a Certificate of Public Convenience and Necessity to build and operate a cellular radio telecommunications system for Rural Service Area No. 6 ("RSA No. 6"). RSA No. 6 includes Boyle, Casey, Garrard, Laurel, Lincoln, Madison, Pulaski, and Rockcastle counties. CPKI has requested authorization to construct a cell site in Pulaski County. CPKI was previously granted authority to operate a cellular radio telecommunications system in RSA No. 6 in Case No. 92-079.<sup>1</sup>

The proposed cell site consists of a 180-foot or less guyed antenna tower to be located one and one-half miles east of the community of Bronston, Pulaski County, Kentucky ("the Burnside cell site"). The coordinates for the Burnside cell site are North Latitude 36° 58' 25" by West Longitude 84° 39' 09".

---

<sup>1</sup> Case No. 92-079, The Joint Application of Rural Cellular Communications Inc. and Cellular Phone of Kentucky, Inc. for Approval of the Transfer and Acquisition of Cellular Telephone Assets in Kentucky Rural Service Area No. 6(B1) and the Financing of the Construction of the Cellular System has been Received.

CPKI has provided information regarding the structure of the tower, safety measures, and antenna design criteria for the Burnside cell site. Based upon the application, the design of the tower and foundation appears to meet the criteria of the Building Officials and Code Administrators International National Building Code with reference to earthquakes, winds, and tornadoes.

Pursuant to KRS 100.324(1), the Burnside cell site's construction is exempt from local zoning ordinances; however, CPKI notified the Pulaski County Judge/Executive of the pending construction. CPKI has filed applications with the Federal Aviation Administration ("FAA") and the Kentucky Airport Zoning Commission ("KAZC") seeking approval for the construction and operation of the Burnside cell site. CPKI has received approval from the FAA while the KAZC application is still pending.

CPKI has filed notices verifying that each person who owns property or who resides within 500 feet of the Burnside cell site has been notified of the pending construction. The notice solicited any comments and informed the property owners or residents of their right to intervene. To date, no intervention requests have been received.

Pursuant to KRS 278.280, the Commission is required to determine proper practices to be observed when it finds, upon complaint or on its own motion, that the facilities of any utility subject to its jurisdiction are unreasonable, unsafe, improper, or insufficient. To assist the Commission in its efforts to comply with this mandate, CPKI should notify the Commission if it does not

use this antenna tower to provide cellular radio telecommunications services in the manner set out in its application and this Order. Upon receipt of such notice, the Commission may, on its own motion, institute proceedings to consider the proper practices, including removal of the unused antenna tower, which should be observed by CPKI.

The Commission, having considered the evidence of record and being otherwise sufficiently advised, finds that CPKI should be granted a Certificate of Public Convenience and Necessity to construct and operate the Burnside cell site in RSA No. 6 under its previously approved tariff.

IT IS THEREFORE ORDERED that:

1. CPKI be and it hereby is granted a Certificate of Public Convenience and Necessity to construct and operate the Burnside cell site.

2. CPKI shall file a copy of the final decision regarding the pending KAZC application for this cell site construction within 10 days of receiving this decision.

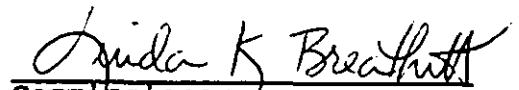

3. CPKI shall immediately notify the Commission in writing, if, after the antenna tower is built and utility service is commenced, the tower is not used for a period of 3 months in the manner authorized by this Order.

Done at Frankfort, Kentucky, this 27th day of June, 1995.
